

Good morning,

We are very happy to have you here to our public online event of the Project Quality Health, a Project co-funded by the European Union and national funds of the participating countries, Greece- Republic of North Macedonia.

The Partners of the Quality Health Project, collaborated together for a common target: to achieve the improvement of the life quality related to the health and social welfare issues. The Project implemented and integrated a set of actions for the improvement of the quality and the accessibility of medical services for people of the cross-border area. Today all the Project Partners will present the achievements and results of the Project.

**General Hospital of Pella,
